AKSHAD ALI

Frontend Developer | React.js, TypeScript & MERN Stack | Available Immediately

Noida, India | +91 7903909883 | akshadali2977@gmail.com | linkedin.com/in/akshad-ali | Portfolio | github.com/erakshadali

PROFESSIONAL SUMMARY

2026 B.Tech CSE graduate and Frontend Developer building responsive web apps with React.js, Next.js, TypeScript and Tailwind CSS, backed by Node.js/Express.js, MongoDB and PostgreSQL. 6 months of hands-on trainee experience, 4 deployed projects with CI/CD on Vercel, and unit testing with Vitest. Comfortable with REST API integration, component-based architecture, Git workflows and AI-assisted development with Claude Code. Quick learner with a focus on web performance, accessibility and clean, tested code.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, Java, C, HTML5, CSS3
Frontend: React.js, Next.js, React Router, Tailwind CSS, Responsive Web Design, Component-Based Architecture, State Management
Backend & Database: Node.js, Express.js, MongoDB, PostgreSQL (Neon), RESTful API Design & Integration
Tools & Platforms: Git, GitHub, Visual Studio Code, Claude Code, Vercel, Netlify, Render, Vitest (unit testing), Lighthouse, CI/CD (Vercel Git-based)
Soft Skills: Problem Solving, Self-Learning, Team Collaboration
Areas of Interest: Web Performance, Accessibility, Testing, Web Design & Development

PROFESSIONAL EXPERIENCE

Frontend Developer (Trainee) *Jan 2026 – Jun 2026*
DigiCoders Technologies Private Limited

- Built responsive, cross-browser interfaces with React.js, HTML5, CSS3, JavaScript (ES6+) and Tailwind CSS, converting UI/UX designs into reusable components.
- Connected front-end screens to REST APIs and built Node.js/Express.js endpoints backed by MongoDB as part of full-stack MERN features.
- Wrote readable, documented code and managed changes through Git/GitHub version-control workflows.
- Worked with designers and senior developers in an agile team, delivering assigned features on schedule.

PROJECTS

Personal Portfolio Website | *HTML5, CSS3, JavaScript* | Live | GitHub

- Built a mobile-first portfolio in HTML5, CSS3 and vanilla JavaScript with custom media queries; Lighthouse (mobile): 84 performance, 96 accessibility, 100 best practices, 100 SEO.
- Added CSS animations, optimized DOM manipulation and an asynchronous contact form for an interactive UI.
- Set up Vercel Git-based CI/CD so every push to main deploys automatically.

Movie Selector App | *React.js, React Router, Context API, TMDB REST API* | Live | GitHub

- Built a responsive movie discovery app in React.js that fetches live data from the TMDB REST API; deployed on Vercel with CI/CD and API keys kept in environment variables.
- Implemented client-side routing with React Router, including dynamic movie detail pages driven by URL parameters.
- Used the React Context API for shared state behind a favorites feature persisted in localStorage, removing prop drilling.
- Handled async fetching (useEffect, async/await) with loading and error states; built a responsive CSS Grid layout for mobile, tablet and desktop.

Travel With Dreams | *React.js, Vite, React Router, Express.js, PostgreSQL* | Live | GitHub

- Built a full-stack travel booking site: React 19 + Vite frontend and an Express.js REST API for trips, destinations, bookings and enquiries, storing data in Neon PostgreSQL.
- Implemented URL-synced trip filters, an image lightbox gallery, day-by-day itineraries and a live price calculator.
- Validated booking and enquiry forms on both client and server; deployed on Vercel with CI/CD through GitHub.

Job Application Tracker | *Next.js, TypeScript, Tailwind CSS, Vitest* | Live | GitHub

- Built a Next.js (App Router) and TypeScript (strict) app to track job applications with status updates, search, filter and CSV export; use it daily to manage 300+ of my own applications.
- Wrote 6 Vitest unit tests covering filtering, stats and CSV logic; built a localStorage hook using useSyncExternalStore.
- Fixed a production build failure caused by reading the clock during prerender; lint, type-check and build now pass.

EDUCATION

Bachelor of Technology, Computer Science *2022 – 2026*
Integral University, Lucknow, India
